

Cosmic Explorers

@ Henize Observatory, Harper College

grades 3-6

Learn to:

- Identify Constellations
- Find stars in the night sky
- Operate a telescope

Observe:

- Planets
- Dying stars
- Star clusters
- Galaxies

Win NASA posters and other prizes!

The Harper College Cosmic Explorer club allows students in grades 3-6 to learn astronomy and win prizes for finding and observing objects in the night sky. Cosmic Explorer activities occur throughout the school year at the Henize Observatory at Harper College. Students who complete their Cosmic Explorer Passport will attend an awards reception at the end of the 2011-2012 school year.

Enrollment Challenge – Fall 2011

The school¹ with the most students enrolled in the Cosmic Explorer program wins a star party hosted by a Harper College faculty member.

Contact: joe.kabbes@HarperAstronomy.org for details.

¹ Schools in the Harper Community College district are eligible, minimum 25 students enrolled
